Welcome to colorizing old, black-and-white photos the professional way with Photoshop. In this course we will show you how you can take an old black-and-white photo or historical photograph and imbue it with new life. We will introduce you to a flexible, interactive and non-destructive workflow.

Using this workflow you can make color adjustments in real time. When you save the Photoshop file, you can come back to it in a day or a week or a year later and continue to make non-destructive color adjustments to the photo. You will see here how to create adjustable colorizing layers as well as add fractal noise in to color areas providing the photo with a sense of enhanced realism.

You would have always wondered what do these professional editors do inside Photoshop to get the fantastic realism they bring in when they colorize an old, black and white photo. The answer is plain and simple, they follow a totally different workflow than the majority of amateur editors out there, thus harnessing the best of the world's most advanced and powerful image editing software – Adobe Photoshop.

Advantages of the colorization workflow which we will follow in this course from the normal colorization workflow are :

- Non-Destructive
- Enhances Realism
- Re-Adjustable/ Tweakable at any time
- Real Time Color Adjustments
- Allows Unlimited Tweaking of Colors.
- It's an Interactive process

In this course we will explain to you step-by-step, the skills necessary to create a convincing colorization with LIVE Screen-shots all along, so that you don't miss out on any detail.
