The Bible as Psychic History: Mediumship in the Bible: An Overview Sidney Schwartz

The great majority of Bible personalities were mediums. They heard the voice of God and experienced divine visions. The study the mediumship and psychic phenomena within the text of the Holy Bible is a major task. It is not the purpose of this book to examine every mediumistic event found in the Bible; but to provide the reader a basic understanding of this vast subject. Although many books have been written about mediumship in the Bible, this book is unique. The Bible as Psychic History begins to unearth additional layers of psychic information embedded in the original Hebrew of the Old Testament. Most Bible translators ignored this layer because they were not educated in psychic science. They do not understand nor recognize the significance of this evidence, which proves the theory — the Bible is indeed a book of psychic history.
