Are you frequently wasting time resetting a password for a site because you don't remember the password and can't find the scrap of paper with it jotted on?

Fret no more. The Password Organizer (old book style cover), part of the Getting Organized Series by author C. J. Stark will get you organized in a jiffy. This paperback with matte finish was born out of frustration with

the above scenario, author Stark created this password keeper to solve the problem. Now, rather than notes and papers that can get lost or scattered, and are in plain sight of anyone passing your desk, you can put your password journal in a secure and safe location, especially when not in use, whether you choose what's best for you is a locked file box or another spot. Plus, when you have it in arm's reach during use, it doesn't scream out with a large title what is contained therein. In addition, the spine and back are plain without descriptions or images revealing the contents, so you can have it face down and the contents aren't described on the cover.

With plenty of space for 608 entries, the Password Organizer is alphabetized, with 4 entries per page. In addition, there is extra space at the end for internet and modem settings, wireless settings, and more, as well as 4 blank lined pages for your needs. There are also password tips included for your review.

**January 2015: You now have the choice between THIS original version in 5" by 8" with 608 entries at 4 to a page – and now, also a 6" by 9" version with 396 entries at 3 to a page.** If you prefer a larger size paperback, with larger fonts and field sizes to write in your information, then please see Volume 8 (old style book cover) and Volume 9 (colorful stripe cover) in this series, Getting Organized. Volumes 8 and 9 only are in the larger size 6" by 9" paperbacks with 3 entries per page.

The Getting Organized Series has a variety of Password Organizers – the contents of each are identical – the matte-finish covers are the only thing that's different.
