In the bestselling tradition of *The Elements* and *Salt Sugar Fat*, an unprecedented visual exploration of what is really inside our food, setting the record straight on the controversial and fascinating science of chemical and synthetic additives in processed food—from Twinkies and McNuggets to organic protein bars and healthy shakes.

What's *really* in your food?

We've all read the ingredients label on the back of a can, box, or bag from the grocery store. But what do all those mysterious-sounding chemicals and additives actually do?

Focusing on 75 of the most common food additives and 25 ordinary food products that contain them, acclaimed photographer Dwight Eschliman and science writer Steve Ettlinger demystify the contents of processed food. Together they reveal what each additive looks like, where it comes from, and how and why it is used.

Essential for everyone who is concerned about the wholesomeness of their diet or merely curious about “polysorbate 60” or “tertiary butylhydroquinone,” *Ingredients* is a visually and scientifically stunning journey from ketchup to Cool Whip.

You'll be surprised at what you find.
