Can We Save the Tiger? Martin Jenkins

The team behind the award-winning APE returns with an inspiring look at a range of endangered species sure to engage every child who loves animals.

Tigers are pretty special — and so are ground iguanas and partula snails and even white-rumped vultures. But these and many other animals are in danger of disappearing altogether, joining the dodo, the marsupial wolf, the great auk, and countless other animals we will never see again. Using the experiences of a few endangered species as examples, Martin Jenkins highlights the ways human behavior can either threaten or conserve the amazing animals that share our planet. Vicky White's stunning portraits of rare creatures offer a glimpse of nature's grace and beauty — and give us a powerful reason to preserve it.
