Andrew "Ender" Wiggin is only 6 years old. His peers bully him, his parents are aloof, and his older brother is violently resentful of him. He might also be humanity's only hope. Ender is recruited to join the International Fleet's legion of child warriors in training, to report for duty in defense of the planet. Leaving behind the only person who ever understood him--his kind-hearted sister Valentine--he takes on the challenge of becoming a commander in Earth's defenses. His promise is high, and his teachers are sure he will rise to the test--that is, if Battle School doesn't kill him first. Ender struggles to find a place within his soul for tranquility, humanity and a connection with something greater than the brutal mechanics of war and strategy. But when he is thrust into Command School at a vastly accelerated pace, will he crack up on the road to becoming the hero that the human race so desperately needs? Sci-fi legend Orson Scott Card's Hugo and Nebula-Award winning classic is brought to vivid life by writer Christopher Yost (X-Force) and artist Pasqual Ferry (Ultimate Iron Man II).
