*MCI and Alzheimer's Dementia: Clinical Essentials for Assessment and Treatment of Cognitive-Communication Disorders* is the ideal choice for instructors who teach an adult language disorders course that includes a unit devoted to cognitive-communication disorders of adults with dementia. It succinctly presents the critical information about the cognitive-communicative disorders associated with mild cognitive impairment (MCI) and Alzheimer's disease. The population of individuals with Alzheimer's is exploding (a new case is diagnosed every seven seconds), and MCI has emerged as an important condition that SLPs can help identify and treat.
