Richard M. McDonough

**Martin Heidegger's *Being and Time* (Masterworks in the Western Tradition)** Richard M. McDonough

The ideas of Martin Heidegger, one of the most important philosophers of the twentieth century, have had a profound influence on work in literary theory and aesthetics, as well as on mainstream philosophy. This book offers a clear and concise guide to Heidegger's notoriously complex writings, while giving special attention to his major work *Being and Time*. Richard McDonough adds historical context by exploring Heidegger's intellectual roots in German idealism and ancient Greek philosophy, and introduces readers to the key themes in Heidegger's work including *Dasein*, *Existenz*, time, conscience, death, and phenomenology. This book, which also considers Heidegger's controversial ethics (or «anti-ethics») and politics, would make an excellent text for both introductory and advanced undergraduate courses on existentialism, phenomenology, continental philosophy, and Heidegger himself.
