## **Real-World Wireless Sensor Networks: 4th International Workshop, REALWSN 2010, Colombo, Sri Lanka, December 16-17, 2010, Proceedings (Lecture Notes in Computer Science)**

Welcome to the proceedings of REALWSN 2010, the 4th Workshop on Real- World Wireless Sensor Networks! After threemeetings in Europewedecided to holdREALWSN in exciting Sri Lanka. We want to thank the local organizers as well as the authors, attendees and members of the technical ProgramCommittee, Demo and Poster Chairs for making this event possible. As the name of the workshop suggests, REALWSN is a forum for people interested in real-world issues in the fascinating research area of wireless sensor networks.Despite many yearsofresearchthe deploymentof realsensornetworks isstillachallengingtask.Thebehaviorofrealdeployednetworksdi?erssubst- tially from the behavior of the same network in a simulator. The main objective of REALWSN is to bring together researchers and practitioners to understand these di?erences and boost the state of the art in this exciting ?eld. This year the program consisted of 11 full papers and ?ve short papers ca- fullyselectedfromover34submissions.SinceREALWSN2010wasastand-alone two-day event, the attendees could also look forward to a poster and demo s- sion with more than 10 contributions. The technical program covered topics from low-level communication and software development to a variety of re- worldsensor networkapplications,some of them tailoredto Asian wildlife which we think is particularly interesting. Thanks again to all people who contributed to the workshop: the Technical ProgramCommittee,thedemoandposterchairsKameswariChebroluandAdam Dunkels, the Publication Chair Luca Mottola and our sponsors that include the UniversityofColombo,theUppsalaVINNExcellenceCenterforWirelessSensor NetworksWISENET,InterBlocksLtd.andtheSustainableComputingResearch Group at the University of Colombo. The local Organizing Committee provided tremendous help that made REALWSN possible.

**From reader reviews:**

**Charlie Bowers:**

Book is definitely written, printed, or descriptive for everything. You can know everything you want by a publication. Book has a different type. As we know that book is important factor to bring us around the world. Next to that you can your reading expertise was fluently. A publication Real-World Wireless Sensor Networks: 4th International Workshop, REALWSN 2010, Colombo, Sri Lanka, December 16-17, 2010, Proceedings (Lecture Notes in Computer Science) will make you to become smarter. You can feel much more confidence if you can know about everything. But some of you think in which open or reading a book make you bored. It is far from make you fun. Why they could be thought like that? Have you searching for best book or acceptable book with you?

**Alexander Macdougall:**

A lot of people always spent their free time to vacation or perhaps go to the outside with them loved ones or their friend. Were you aware? Many a lot of people spent that they free time just watching TV, or perhaps playing video games all day long. If you would like try to find a new activity that is look different you can read some sort of book. It is really fun for you personally. If you enjoy the book that you read you can spent 24 hours a day to reading a book. The book Real-World Wireless Sensor Networks: 4th International Workshop, REALWSN 2010, Colombo, Sri Lanka, December 16-17, 2010, Proceedings (Lecture Notes in Computer Science) it is rather good to read. There are a lot of individuals who recommended this book. We were holding enjoying reading this book. Should you did not have enough space to develop this book you can buy often the e-book. You can m0ore effortlessly to read this book through your smart phone. The price is not to fund but this book has high quality.

**Bobby Morrison:**

Is it you who having spare time then spend it whole day by simply watching television programs or just lying on the bed? Do you need something new? This Real-World Wireless Sensor Networks: 4th International Workshop, REALWSN 2010, Colombo, Sri Lanka, December 16-17, 2010, Proceedings (Lecture Notes in Computer Science) can be the response, oh how comes? A book you know. You are consequently out of date, spending your spare time by reading in this fresh era is common not a geek activity. So what these guides have than the others?

**Virginia Cherry:**

A lot of guide has printed but it differs. You can get it by online on social media. You can choose the most effective book for you, science, witty, novel, or whatever by simply searching from it. It is named of book Real-World Wireless Sensor Networks: 4th International Workshop, REALWSN 2010, Colombo, Sri Lanka, December 16-17, 2010, Proceedings (Lecture Notes in Computer Science). You can add your knowledge by

it. Without departing the printed book, it might add your knowledge and make you happier to read. It is most important that, you must aware about guide. It can bring you from one destination to other place.
