THE ENDURING VISION, CONCISE EDITION, is an engaging narrative that integrates political, social, and cultural history within a chronological framework. Known for its focus on the environment and the land, the text is also praised for its innovative coverage of cultural history, public health and medicine, and the West--including Native American history. The Seventh Edition brings the work fully up to date, and was carefully revised to create a sharper narrative. Chapters 26 through 29 have been reorganized to consolidate coverage of the Cold War, the civil rights movement, and the Vietnam War, so that each is addressed cohesively.
