"The defendant told the jury that he did not kill girlfriend. He *did*, however, admit to dismembering her, boiling her bones, and hiding them in the Port Authority locker."

At the heart of countless crimes lies the mystery of the human mind. In this eye-opening book, Dr. Cheryl Paradis draws back the curtain on the fascinating world of forensic psychology and revisits the most notorious and puzzling cases she has handled in her multifaceted career.

"Out it all came, a slew of bizarre comments about the electronic chips implanted in his brain."

Her riveting, sometimes shocking stories reveal the crucial and often surprising role forensic psychology plays in the pursuit of justice. Sometimes the accused believe their own bizarre lies, creating a world that pushes them into frightening, violent crimes.

"My client is charged with murder and tells me he is a descendent of kings. He says he is of royal blood. Can you evaluate him for an insanity defense?"

Join Dr. Paradis in a stark concrete cell, with the accused handcuffed to a chair opposite her, as she takes on the daunting task of mapping the suspect's madness--or exposing it as fakery. Have a front-row seat in a tense, packed courtroom, where her testimony can determine an individual's fate. The criminal mind has never been so intimately revealed--or so darkly compelling.

"A forensic psychologist reveals the dark and troubling human mind. Fascinating."
--Robert K. Tanenbaum
