## Chaos and Moonlight (Order of the Nines Book 1) A.D. Marrow

The Nines, an elite group of vampires, was established to stand as protection for their race. Fractured by centuries of betrayal and loss, the group is now little more than myth, its remaining members scarred and shattered.

Taris, the oldest living vampire, is no stranger to loss and heartbreak. He is all that holds the Nines together as they struggle to save themselves from total extinction.

Enter the beautiful and brilliant Dr. Sarah Bridgeman, whose medical research has resulted in a breakthrough for both humans and vampires. Her work may be the salvation this weary band of guardians has been looking for.

Taris needs to reach Sarah and enlist her help before those aligned against him can act. Can a vampire king convince a stunning young scientist to save a species that isn't even supposed to exist?

For now, only one thing is certain: no science can explain the explosive chemistry between them.

*Chaos and Moonlight* is the first installment in the Order of the Nines series, and is A. D. Marrow's debut novel.
